

GAVIN GOODHALL

Orlando, FL | (850) 368-8108 | gavingoodhall@gmail.com

PROFESSIONAL SUMMARY

Mechanical Engineering student at the University of Central Florida with hands-on team project experience in 3D modeling, programming, testing, and technical problem-solving. Strong 3D modeling experience using Blender, with additional experience in AutoCAD, C/C++, electrical lab equipment, and shop tools. Seeking a general engineering internship or cooperative education role in aerospace, defense, or automotive environments.

EDUCATION & AWARDS

University of Central Florida | Orlando, FL

Bachelor of Science in Mechanical Engineering | Expected Graduation: Fall 2028 | GPA: 3.31/4.00

Florida Bright Futures Scholarship Recipient | 2023 – 2026

Florida Engineering Scholarship Recipient | 2023

TECHNICAL SKILLS

3D Modeling & Design: Blender (advanced), AutoCAD (basic), SolidWorks (basic)

Programming & Analysis: C/C++, MATLAB (basic)

Engineering Tools: Electrical lab equipment, 3D printing, shop and power tools

Software: Microsoft Word, PowerPoint, Excel, Adobe Photoshop, Illustrator, Unity

ENGINEERING PROJECTS

Great Naval Orange Race | EGN 1007C

- Created the team's complete boat model in Blender to evaluate geometry and component placement, then adapted the design after a late competition rule change.
- Led construction of the foam boat and selected placement of mechanical and electrical components to support stability, integration, and performance.
- Assisted with C/C++ programming, electrical assembly, and testing; finished among the top 20 teams and earned a 107% project grade.

Robot Challenge | EGS 1006C

- Collaborated with a team to program a provided robot in C/C++ and integrate a custom launcher for a scored engineering challenge.
- Designed, built, and tested a small catapult using wood and craft materials, helping the team achieve 2,500 points and earn a 100% project grade.

Independent 3D Modeling Projects

- Created an extensive portfolio of personal Blender projects, strengthening advanced modeling, layout, iteration, and troubleshooting skills through repeated independent design work.

WORK EXPERIENCE

Self-Employed Landscaping | Owner/Operator | Orlando, FL | Jan 2019 – Present

- Manage recurring residential lawn-care and landscaping jobs, including scheduling, estimating, client communication, material handling, and project completion.
- Operate and maintain mowers, edgers, trimmers, and other power equipment while adapting plans to changing site conditions and customer needs.
- Track labor, disposal fees, and project progress while building repeat client relationships through dependable service and attention to detail.

Independent Pet Care Provider | Dog Sitter/Walker | Orlando, FL | 2023 – Present

- Provide in-home pet sitting and occasional dog-walking services for repeat clients.
- Follow owner instructions, manage visits independently, and provide reliable updates regarding pets' care and schedules.

LEADERSHIP & INVOLVEMENT

Air Force ROTC | University of Central Florida | 2023 – 2024

- Completed three semesters of leadership development, physical training, drill, military customs, and team-based activities.

Air Force Junior ROTC | Timber Creek High School | 2019 – 2023

- Led a student drone club during senior year, coordinating the construction, setup, testing, and flight of small unmanned aircraft.
- Participated on the drill team, developing teamwork, discipline, precision, and accountability through practices and competitions.

VOLUNTEER EXPERIENCE

Church Media Volunteer | Orlando, FL | Nov 2021 – Present

- Create and manage digital graphics for church services and currently train in live-audio operations, signal flow, equipment operation, and service-team communication.

Second Harvest Food Bank | Orlando, FL | Jun 2022 – Sep 2022

- Worked with volunteer teams to sort, package, and organize food and supplies while maintaining clean work areas and following safety procedures.
